They still got you with some other scams. There are no contagions. No microbe causes anything. They have their jobs in nature, mostly which is to clean up toxins and dead tissue. Why do you take the toxic drug ivermectin if you understood it was all a scam? Look into the scam of supplements. No vitamin has ever been found in nature. It's the

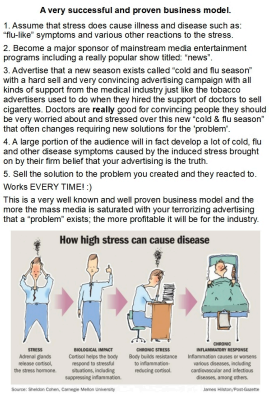
Yes indeed!

The Nocebo effect has always been a very powerful tool of the Rockefeller/Gates/Fauci pharmaceutical industrial complex cult of the medical monopoly.
See more



A very successful and proven business model.
1. Assume that stress does cause illness and disease such as: "flu-like" symptoms and various other reactions to the stress.
2. Become a major sponsor of mainstream media entertainment programs including a really popular show titled: "news".
3. Advertise that a new season exists called "cold and flu season" with a hard sell and very convincing advertising campaign with all kinds of support from the medical industry just like the tobacco advertisers used to do when they hired the support of doctors to sell cigarettes. Doctors are really good for convincing people they should be very worried about and stressed over this new "cold & flu season" that often changes requiring new solutions for the "problem".
4. A large portion of the audience will in fact develop a lot of cold, flu and other disease symptoms caused by the induced stress brought on by their firm belief that your advertising is the truth.
5. Sell the solution to the problem you created and they reacted to.
Works EVERY TIME! :)
This is a very well known and well proven business model and the more the mass media is saturated with your terrorizing advertising that a "problem" exists; the more profitable it will be for the industry.
How high stress can cause disease
STRESS
Adrenal glands release cortisol, the stress hormone.
BIOLOGICAL IMPACT
Cortisol helps the body respond to stressful situations, including suppressing inflammation.
CHRONIC STRESS
Body builds resistance to inflammation - reducing cortisol.
CHRONIC
INFLAMMATORY RESPONSE
Inflammation causes or worsens serious diseases, including cardiovascular and infectious diseases, among others.

1990's - 2 flu shots - got the flu - lesson learned - no more flu shots. 2010's - have sex with HIV positive lady till my dick becomes a bloody noodle - no AIDS - lesson -AIDS is not real. Further reinforcement of what I knew as a child - They are lying to me. (And everybody else).

The difference is now from 2020, is that if someone refused to wear a mask they were then they were seen as selfish; however now if you see some Boomer wearing a mask, they are regarded as selfish idiots pushing the scam. The Mask scam virus scam, Genie is out of the bottle now. https://www.brighteon.com/1ad2ed99-a0f0-4c66-b553-
